

LogicBio Therapeutics to Present at 2021 Redburn Gene Therapy Summit

March 30, 2021

LEXINGTON, Mass., March 30, 2021 /PRNewswire/ -- LogicBio Therapeutics, Inc. (Nasdaq:LOGC), a clinical-stage genetic medicine company pioneering gene delivery and gene editing platforms to address rare and serious diseases from infancy through adulthood, today announced that chief executive officer Frederic Chereau will be participating on a panel at the 2021 Redburn Gene Therapy Summit. During the panel, entitled "Gene therapy: a changing regulatory landscape," Mr. Chereau will offer a brief overview of LogicBio and discuss the design of the SUNRISE clinical trial of LB-001 for the treatment of methylmalonic acidemia (MMA). The panel will take place at 9:15 a.m. EDT on Wednesday March 31st.

About LogicBio Therapeutics, Inc.

LogicBio Therapeutics is a clinical-stage genetic medicine company pioneering gene delivery and gene editing platforms to address rare and serious diseases from infancy through adulthood. The company's proprietary GeneRide™ platform is a new approach to precise gene insertion that harnesses a cell's natural DNA repair process leading to durable therapeutic protein expression levels. LogicBio's cutting-edge sAAV™ capsid development platform is designed to support development of treatments in a broad range of indications and tissues. The company is based in Lexington, MA.
